 T10Y — Federal Reserve H.15 10-Yr Constant Maturity Treasury Semiannual yield

TSFR3M — Chicago Mercantile Exchange Inc. (CME) Term SOFR 3-Month

The administrator of U.S. dollar LIBOR, ICE, ceased publication of daily U.S. dollar LIBOR panels after June 30, 2023. For securities where (i) issuers have announced replacement reference rates or (ii) the Adjustable Interest Rate (LIBOR) Act of 2022 was determined by the Adviser to apply, the new reference rate (usually Term SOFR) has been listed as the benchmark. The spread over that benchmark includes any tenor spread adjustment applicable upon benchmark transition. For all other securities, the original reference rate and spread continue to be listed.

Securities eligible for the Dividends Received Deduction and distributing Qualified Dividend Income.

<sup>\*\*</sup> Securities distributing Qualified Dividend Income only.

<sup>\*\*\*</sup> Aggregate cost of securities held.

<sup>\*\*\*\*</sup> Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional buyers. At February 28, 2025, these securities amounted to \$79,946,357 or 25.6% of total managed assets.

All or a portion of this security is pledged as collateral for the Fund's loan. The total value of such securities was \$223,775,896 at February 28, 2025

#### FINANCIAL HIGHLIGHTS(1)

For the period December 1, 2024 through February 28, 2025 (Unaudited) For a Common Stock share outstanding throughout the period

PER SHARE OPERATING PERFORMANCE:		
Net asset value, beginning of period	\$	18.57
INVESTMENT OPERATIONS:		
Net investment income		0.29
Net realized and unrealized gain/(loss) on investments		0.02
Total from investment operations		0.31
DISTRIBUTIONS TO COMMON STOCK SHAREHOLDERS:		
From net investment income		(0.32)
Total distributions to Common Stock Shareholders		(0.32)
Net asset value, end of period	\$	18.56
Market value, end of period	\$	16.97
Common Stock shares outstanding, end of period	10	0,456,821
RATIOS TO AVERAGE NET ASSETS AVAILABLE TO COMMON STOCK SHAREHOLDERS:		
Net investment income†		6.34%*
Operating expenses including interest expense		4.64%*
Operating expenses excluding interest expense		1.33%*
SUPPLEMENTAL DATA:††		
Portfolio turnover rate		3%**
Total managed assets, end of period (in 000's)	\$	312,556
Ratio of operating expenses including interest expense to		
average total managed assets		2.87%*
Ratio of operating expenses excluding interest expense to		0.000/-1-
average total managed assets		0.83%*

<sup>(1)</sup> These tables summarize the three months ended February 28, 2025 and should be read in conjunction with the Fund's audited financial statements, including notes to the financial statements, in its Annual Report dated November 30, 2024.

 <sup>\*</sup> Annualized.

<sup>\*\*</sup> Not annualized.

The net investment income ratios reflect income net of operating expenses, including interest expense.

<sup>††</sup> Information presented under heading Supplemental Data includes loan principal balance.

# FINANCIAL HIGHLIGHTS (Continued) Per Share of Common Stock (Unaudited)

	Total Dividends Paid	Net Asset Value	NYSE Closing Price	Dividend Reinvestment Price <sup>(1)</sup>
December 31, 2024	\$0.1280	\$18.31	\$16.70	\$16.77
January 31, 2025	0.0937	18.35	16.93	16.96
February 28, 2025	0.0937	18.56	16.97	17.09

Whenever the net asset value per share of the Fund's Common Stock is less than or equal to the market price per share on the reinvestment date, new shares issued will be valued at the higher of net asset value or 95% of the then current market price. Otherwise, the reinvestment shares of Common Stock will be purchased in the open market.

#### NOTES TO PORTFOLIO OF INVESTMENTS (Unaudited)

#### Aggregate Information for Federal Income Tax Purposes

At February 28, 2025, the aggregate cost of securities for federal income tax purposes was \$315,490,312 the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$6,851,552 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$12,520,078.

#### 2. Additional Accounting Standards

*Portfolio Valuation:* Rule 2a-5 under the Investment Company Act of 1940, as amended (the "1940 Act"), establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Rule 2a-5 permits fund boards to designate a Valuation Designee to perform fair value determinations, subject to board oversight and certain other conditions. Rule 2a-5 also defines when market quotations are "readily available" for purposes of Section 2(a)(41) of the 1940 Act, which requires a fund to fair value a security when market quotations are not readily available.

The net asset value of the Fund's Common Stock is calculated by the Fund's Administrator no less frequently than on the last business day of each week and month in accordance with the policies and procedures adopted by the Adviser, as the Valuation Designee of the Board of Directors (the "Board") of the Fund. Net asset value is calculated by dividing the value of the Fund's net assets available to Common Stock by the number of shares of Common Stock outstanding. The value of the Fund's net assets available to Common Stock is deemed to equal the value of the Fund's total assets less (i) the Fund's liabilities and (ii) the aggregate liquidation value of any outstanding preferred stock.

The Fund's preferred and debt securities are valued on the basis of current market quotations provided by independent pricing services or dealers approved by the Valuation Designee. In determining the evaluated mean value of a particular preferred or debt security, a pricing service or dealer may use information with respect to transactions in such investments, quotations (based on the mean of bid and asked price), market transactions in comparable investments, various relationships observed in the market between investments, and/or calculated yield measures based on valuation technology commonly employed in the market for such investments. Common stocks that are traded on stock exchanges are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available mean price. Futures contracts and option contracts on futures contracts are valued on the basis of the settlement price for such contracts on the primary exchange on which they trade. Investments in over-the-counter derivative instruments, such as interest rate swaps and options thereon ("swaptions"), are valued using prices supplied by a pricing service, or if such prices are unavailable, prices provided by a single broker or dealer that is not the counterparty or, if no such prices are available, at a price at which the counterparty to the contract would repurchase the instrument or terminate the contract. Investments for which market quotations are not readily available or for which the Valuation Designee determines that the prices are not reflective of current market conditions are valued at fair value as determined in good faith by the Valuation Designee, including reference to valuations of other securities which are comparable in quality, maturity and type.

Investments in money market instruments and all debt and preferred securities which mature in 60 days or less are valued at amortized cost, provided such amount approximates market value. Investments in money market funds are valued at the net asset value of such funds.

Fair Value Measurements: The Fund has analyzed all existing investments to determine the significance and character of all inputs to their fair value determination. The levels of fair value inputs used to measure the Fund's investments are characterized into a fair value hierarchy. Where inputs for an asset or liability fall into more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's valuation. The three levels of the fair value hierarchy are described below:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers in and out of levels are recognized at market value at the end of the period.

A summary of the inputs used to value the Fund's investments as of February 28, 2025 is as follows:

	Feb	Total Value at ruary 28, 2025	Level 1 Quoted Price	Level 2 Significant Observable Inputs	Level 3 Significant nobservable Inputs

#### NOTES TO PORTFOLIO OF INVESTMENTS (Unaudited) (Continued)

During the reporting period, there were no transfers into or out of Level 3.

The fair values of the Fund's investments are generally based on market information and quotes received from brokers or independent pricing services that are unaffiliated with the Adviser. To assess the continuing appropriateness of security valuations, the Adviser regularly compares current prices to prior prices, prices across comparable securities, actual sale prices for securities in the Fund's portfolio, and market information obtained by the Adviser as a function of being an active market participant.

Securities with quotes that are based on actual trades or actionable bids and offers with a sufficient level of activity on or near the measurement date are classified as Level 1. Securities that are priced using quotes derived from implied values, indicative bids and offers, or a limited number of actual trades—or the same information for securities that are similar in many respects to those being valued—are classified as Level 2. If market information is not available for securities being valued, or materially-comparable securities, then those securities are classified as Level 3. In considering market information, the Valuation Designee evaluates changes in liquidity, willingness of a broker to execute at the quoted price, the depth and consistency of prices from pricing services, and the existence of observable trades in the market.
